Community honors third decade of financial services

By Caroline Spears
cspears@baxterbulletin.com

While there are many generational and family legacies that have helped form Mountain Home, one local family celebrated a ribbon cutting Tuesday to mark a very special milestone for the financial needs of the community.

A ribbon cutting was held at the U.S. Highway 62 West location Edward Jones in Mountain Home to celebrate the move of Seth Beshears into the advisory role, filling some big shoes that had come before him. Mountain Home Chamber

of Commerce Membership and Sales Director Eric Totty opened the ceremony by thanking the community for its support, as well as the family of the late Nancy Luelf and those who followed in her footsteps for providing the area with their years of quality financial services.

Beshears is following in the footsteps of his grandmother, Nancy Luelf who joined the Edward Jones team of financial advisors during the mid-1990s in Mountain Home which was not an easy path in the beginning.

Ferrells file \$750K lawsuit

Couple seeks damages from Bull Shoals, 5 other defendants

By Linda Masters
lmasters@baxterbulletin.com

BULL SHOALS — Residents Brenna and Charles Ferrell filed an eight-page civil lawsuit Sept. 11 in the U.S. District Court, Western District of Arkansas, Fayetteville Division, naming the City of Bull Shoals, former Mayor David Nixon, former Mayor and former Police Chief David Hotchkiss, former Police Chief John Ainsworth, former Police Officer Dustin Sanders and Nick Knopic as defendants.

The Ferrells are asking for compensatory damages in excess of \$750,000, punitive damages, reasonable attorneys' fees, injunctive relief, an apology and a jury trial on all issues so triable. The lawsuit was filed by Lucien R. Gillham and Luther Oneal Sutter of Sutter & Gillham P.L.L.C., attorneys at law, in Little Rock.

The lawsuit stems from an Aug. 15 incident when Brenna Ferrell was arrested and charged with two counts of aggravated assault, Class D felonies, for allegedly pointing a handgun at two people. In a later jury trial, she was found not guilty.

Count I states by virtue of the facts alleged herein, defendants have committed malicious prosecution and false imprisonment. As a result of the defendants actions, Brenna Ferrell has endured mental, emotional and physical suffering and damage to her reputation, as well as attorneys' fees. Defendants conduct have been willful, malicious and reckless violation of Brenna Ferrell's rights, meriting punitive damages.

Count II states by virtue of the fact herein, defendants has committed abuse of process by using process to extort the Ferrells into leaving town, stop running for office, give up their interest in the strip mall and stop complaining about law enforcement. Brenna Ferrell has endured mental, emotional and physical suffering and damage to her reputation, as well as attorneys' fees. Defendants conduct have been willful, malicious and reckless violation of Brenna Ferrell's rights, meriting punitive damages.

Veterans share Lone Eagle Honor Flight experience

By Linda Masters
lmasters@baxterbulletin.com

Two local veterans are sharing their honor-flight experience hoping it will encourage other veterans to take advantage of the program.

David LaRose, a 6-year veteran of the U.S. Army veteran, and Carl "Bucky" Hill, an 8-year U.S. Navy veteran, both of Lakeview, participated in the Lone Eagle Honor Flight program last May. Now, they want every veteran, no matter when, where or how they served, to know about and take an honor flight.

LaRose said his uncle had taken a Lone Eagle Honor Flight and urged

him to do the same, so he added his name to a year-long waiting list. World War II and terminally ill veterans get priority, followed Korean War veterans, Vietnam War veterans, Persian Gulf War veterans, etc.

"Each veteran needs a guardian to accompany them," he said. "They asked me if I knew anyone, so I gave them 'Bucky's' name. After filling out necessary paperwork, Lone Eagle realized Hill also was a veteran, so he was signed up to go on the flight as such instead of being a guardian.

Hill said he felt because he didn't serve overseas or in combat, he didn't

deserve an honor flight. "Don't feel that way," he said. He added that no matter what any service member did, they are worthy because they served their country.

"They honor every veteran because you served," Hill explained "Support staff is important to keep the military running smoothly," added LaRose.

Unlike many other honor flights which are a long, one-day events, the Lone Star flight happens over a three-day period: one day to travel to the East Coast, one day in Washington, D.C. and one travel day home.

LaRose and Hill were provided shirts, hats and

commercial airline tickets to fly to Baltimore, Maryland.

"Veterans flew in from all over the U.S., LaRose explained.

After landing at the Baltimore/Washington International Thurgood Marshall Airport, they were and taken to a hotel, where they were welcomed, joined other veterans and were appointed each a guardian. Hill's guardian was Sandra Christman of Virginia, and LaRose's guardian was Owen Bowers of Florida. Each guardian makes a \$500 donation, which helps offset the cost of the veterans.

Bull Shoals Council to meet Thursday

By Linda Masters
lmasters@baxterbulletin.com

BULL SHOALS — A City Council meeting is set for 6:30 p.m. Thursday at City Hall. The council is expected to address the next portion of the sidewalk grant, animal control policy, millage rates for 2025, changing meeting dates for the holidays, possible canine usage and other business.

At its Tuesday, Sept. 17 workshop, Mayor Carol Duss showed the council and citizens in attendance three possible routes for Phase 2 of city sidewalk to be installed from Mockingbird Lane to Shorecrest Avenue as part of an existing grant. An alternative route is to use Vickery Drive which runs one block behind Highway 178. The third option is to move the sidewalk across the street in that area which could require a crosswalk. The council will need to decide which option to accept so the job can be handed off for engineering.

Councilman Joey Grede pointed out the section from Shorecrest to Summit Street is the area where people have to walk on the highway, suggesting it might be more important.

Due to the terrain, he questioned whether that section could be more like a walking path made of asphalt or mulch instead of concrete. It was pointed out the using the grant means the path would need to be handicapped accessible. Duss said she would look into it.

The council will vote on a resolution to approve \$9,556.05 for an electrical

panel and installation on sewer lift station No. 6.

Duss told the council the animal control vehicle repairs have been made and the council's package includes an animal control policy for them to consider. He noted the animal control officer will report to the police chief. Once the council approves the policy, the animal control officer can be sworn in.

Duss told the council it will need to decide whether to keep the tax millage rate at 5.0 for the 2025 tax collection. Of the 5.0 current millage, 1.5 mils goes to Bull Shoals Volunteer Fire Department.

Due to the upcoming holidays, the council will consider moving the workshop to Nov. 12 and the council meeting to Nov. 21. In December, the workshop will be moved to Dec. 10 and the meeting to Dec. 19.

Citizen Brenna Ferrell asked several questions about the city considering contracting with one of its police officers for use of a canine.

Harper said Sgt. Mark Clark can obtain the canine and training through the GI Bill. The city then would contract with Clark for use of the dog as needed. A cage for the patrol car will cost \$4,000. He said this would be covered by an \$18,000 grant. The grant will not cover the expense for a door release if air conditioning or heat fails.

Harper said the canine would be shared with Alpena, and the expenses would be shared by Alpena. No money from Bull Shoals would go to Alpena.

Ferrell noted she was in favor of a canine as long as it is a single-purpose dog used for search and rescue. She said there was too much liability with a canine used for take-down purposes. Harper said he still is looking into the city's liability but because the dog will belong to Clark and not the city it removes a lot of the liability.

Later during citizens' comments, Lynn Nickels said the city was "burned before" by a city-owned canine that simply became a pet that the city paid for, asking "What do we need a dog for?"

Harper responded that earlier this year, the department spent seven hours looking for a missing person, and he could not find an agency to provide a dog to help in the search. It would have been helpful if the city had access to a dog. "If he (the dog) found one person in its career, it's worth it," Harper answered. He added the officer would have to sign a contract to stay a certain number of months or reimburse the city for costs associated with the dog.

"So you're saying the city is in dire need of a dog?" Nickels questioned. "It is not a dire need, but it is a tool that I think would be very useful," Harper answered.

Grede questioned Harper about the patrol car that was in an accident including was he drug screened. He also said if the officer was on his own time, he should be responsible for repairs.

Harper said the on-call office had responded to an ATM alarm, which was a

false alarm, and was going home when the car was hit in the front by a deer near the Day-Use Area of Bull Shoals-White River State Park.

He added the accident was handled by Arkansas State Police, and the officer was not drug tested. City employees are subject to random drug tests and if the city wants a mandatory drug test for an accident, they need to address that.

During citizens comments Phil Friese noted the city has eight officers and seven patrol cars, but not an officer on duty at all times. He pointed out that if police officers were not allowed to drive patrol cars to and from work, they deer vs patrol car accident would not have happened.

Brenna Ferrell questioned the status of the condemnation of the Village Mart property. Duss said she understood from the attorney negotiations are underway.

Robin Fawcett read a statement concerning first amendment rights relative to city council meetings. The statement said a city does not have to allow citizens' comments but if they do they cannot limit what is said.

Councilman Wes Phelan said the statement Fawcett read was from some years back and there have been Supreme Court decisions about this since then. He said the verbiage in Ordinance 2024-01 was recommended by the Arkansas Municipal League which states citizens must be respectful and orderly or they can be removed from the meeting. Fawcett asked Phelan if he could provide a copy of that so she could read it. He said he would.

Councilman Dale Forbes said the council needs to be more understanding and listen to the citizens who come before the council and he believed meetings would go a lot smoother.

CRIME BEAT

MC Sheriff report week's activities

YELLVILLE — For the week ending Sept. 20, Marion County deputies responded to eighty-three calls for service, according to Sheriff Gregg Alexander. Of those, deputies responded to two wellness checks and three domestic disturbances. There were three misdemeanor arrests, and no felony arrests. Deputies assisted and/or worked four accidents and completed 20 incident reports. Deputies provided two bailiff hours for the week.

In addition, the Marion County Sheriff's Office conducted range training with 17 deputies this week. The training included a Dot Torture course which is used to instill shooting accurately when engaging a target. Training also incorporated ballistic shields while moving and firing too accurately move and shoot with the shield deployed. One one more training scheduled this calendar year, Alexander said.

Investigators opened two felony and three misdemeanor investigations. Investigators also conducted 23 interviews concerning on-going cases and background checks on applicants. Sixty items of evidence were logged, and three investigative conferences completed. Two search warrants also were executed.

Investigators also completed quarterly firearms training focusing on moving and stress fire situations.

The Detention Center booked eight inmates, released 14 inmates and ended the week with a total of 38 inmates, Alexander reported.

96MI will return to Bull Shoals Theater of the Arts at 7 p.m. Saturday, Sept. 28. SUBMITTED PHOTO

96MI returns to BSTA on Saturday

By Submitted Report

BULL SHOALS—96 MI will be back on the stage from 7-9 p.m. Saturday, Sept. 28 at Bull Shoals Theater of the Arts.

It's 96 miles from his front door to hers, but this acoustic duo makes it work. Michael and Tami Cooper are a cover-band couple with a musical repertoire

ranging from top 40 pop to country, oldies to Americana and Indy-folk to R&B. 96 MI will have you singing along before the end of the night.

The show is free, but donations are sought during intermission to help cover the cost of the band and the facility. The concession stand open with sodas, water, candy bars and popcorn.

Upcoming performances include:

- Oct. 19 — Ozark Mountain Blues
- Nov. 9 — Ozark Thunder
- Dec. 7 — Kattie Laney Project.

Call Patti Butler at (870) 676-9766 about events at the theater or sponsoring a band, and Sandy Evans at (870) 656-7120 about booking a band.

What's happening at BSWR State Park

By Bull Shoals-White River State Park Staff

BULL SHOALS — Interpretive programs scheduled this week at Bull Shoals-White River State Park include:

Wednesday, Sept. 25

• **Lake Cruise** — 10-11:30 p.m. Sign up in advance for a relaxing cruise on Bull Shoals

Lake. Sit back and enjoy the breezes and explore this fascinating Ozark region to learn how the construction of the dam shaped both the landscape and history of this area. Register in advance for a 90-minute cruise. Cost is \$15 per adults, \$7.50 for children ages 6-12 and free for children younger than

age 6. Register at James A. Gaston Visitor Center or call (870) 445-3629. Meet at Bull Shoals Lake Boat Dock for the cruise.

Saturday, Sept. 28

• **Great Arkansas Cleanup at Bull Shoals-White River State Park** — Bull Shoals-White River State Park needs your help! Join other volunteers and park staff

to participate in a litter pickup in multiple sections of the park. All supplies will be provided. Meet at the Big Spring in the campground.

For information on interpretive programs, making camping reservations or renting any of the park's venues, call James A. Gaston Visitor Center at (870) 445-3629.

Did you get your vaccine?

I managed to get my annual flu shot, followed by this year's COVID-19 shot to cover the new variants. Since COVID seems to be rampant in the Twin Lakes Area again, I like to take every precaution I can.

LINDA MASTERS ETC.

After reading a very interesting, lengthy article in this month's AARP magazine about COVID and long COVID, I scurried right off to get this year's vaccine as soon as it was available.

I know not everyone is a proponent of vaccines, and I respect that, but they have served me well throughout my life, so I get every one of them my allergies will allow me to get. It's wonderful in this day and age that children don't have to suffer through measles, chicken pox and mumps like people my age did.

I still have to get the shingle vaccine. I've experienced shingles several times and do not want the experience again.

Busy times are ahead in our little town. Mark your calendar for these upcoming events:

- **VFW Canteen Lunch** — 11 a.m.-1 p.m. Thursday, Sept. 26, Hoevel-Barnett Veter-

ans of Foreign Wars Post 1341, 1206 Central Blvd. Cost: \$7

- **City Council meeting** — 6:30 p.m. Thursday, Sept. 26, City Hall

- **Free dinner and outdoor movie** — 7 p.m. dinner; 7:30 p.m. movie Friday, Sept. 27 First Baptist Church parking lot. Dinner. Menu: Hot dogs, chili, popcorn and beverages. Movie: "Courageous: Honor Begins at Home." Take lawn chair or blanket

- **Chili Cook-Off fundraiser to benefit Bull Shoals Theater of the Arts** — 11 a.m.-3 p.m. Saturday, Sept. 28 at the theater, 1015 Central Blvd. Free to enter, free for vendors who would like to set up to sell/advertise their business and free to attend. Those wishing to enter chili need to take enough chili to fill an 8-quart slow cooker and a table. Cups and spoons for tasting will be provided. Call (870) 888-6218 with your email to secure a spot

- **Candidates in the Park** — 4-7 p.m. Saturday, Sept. 28, Danuser City Park. Five-minute speeches from candidates with 10 minutes for public questions. Moderator will ensure fair time allowance. Games and food available. Take a lawn chair.

AREA BLOOD DRIVE CALENDAR

ROGERS — The American Red Cross continues to amplify the ongoing critical need for blood and platelets to keep the blood supply stable as fall begins. Donors of all blood types, especially those with type O blood, those giving platelets and those who have never given before, are needed now.

Only three out of 100 Americans donate blood. With the blood supply still at critical levels, every single donation is key to making sure all patients relying on lifesaving transfusions, including car accident victims and those living with sickle cell disease, get the care they need.

Fall into donating blood or platelets. Make an appointment to give now by visiting RedCrossBlood.org

org, calling (800) RED CROSS or by using the Red Cross Blood Donor App. In thanks, those who come to give by Sept. 30 will receive a \$15 e-gift card to a merchant of choice. See RedCrossBlood.org/Fall for details.

Those who come to give Oct. 1-31 will receive a \$10 Amazon.com Gift Card by email, plus be automatically entered for a chance to win one of three \$5,000 gift cards. For full details, visit RedCrossBlood.org/Treat

Upcoming Red Cross blood donation opportunities include:

- Thursday, Sept. 26 — 9:30 a.m.-1:30 p.m., Donald W. Reynolds Library Serving Baxter County, 300 Library Hill Lane
- Thursday, Oct. 3 — Noon to 4 p.m., Lake Forest Senior Living, 300 Good Samaritan Drive. Appointment: (870) 425-2497, extension 19 and 1-5 p.m. The Church of Jesus Christ of Latter Day Saints, 100 Western Hills Loop
- Friday, Oct. 4 — 9 a.m.-1 p.m., Flippin High School, 103 Alford St.
- Tuesday, Oct. 15 — 9 a.m.-1 p.m., Baxter Health, 624 Hospital Drive.

Politics at Lunch

You're full of (expletive deleted)," said the new member, who is starting to get into the swing of things.

He was speaking to the stockbroker, who only happens to be the guy who brought him into the group; his sponsor, if you will. The latter had posited that the former was "a tariff man," meaning either that he was a supporter of PrePOS (the previous president of the United States) or simply a trade protectionist. The former and the latter, having arrived together, had been nipping at one another since they took their seats. The new guy, an accountant, prepares the stockbroker's tax returns, and he relishes reminding the client that "I know your secrets."

How they came to be discussing international commerce en route to our little lunch gathering was a National Public Radio story that detailed the latest vow by PrePOS to impose substantial import duties on products from China. PrePOS, somewhere in the Rust Belt, was insisting for the umpteenth time that it would be China that paid the tariffs; the NPR staff had followed that soundbite with a rebuttal, sort of, from the Democratic presidential nominee, who blathered something about "confronting" China, or "holding it accountable." And then a third comment from an academic economist, explaining that tariffs are always a surcharge on the consumer.

From across the table, the recently retired federal government manager, for whom political history is light reading, spoke up. "Time was, your party would have tarred and feathered a tariff guy," he said, nodding at the stockbroker, who has always worn his Republican partisanship on his sleeve. Before he could respond, the guy we call Big D Democrat spoke up.

"It's put our folks in a box," he said, "it" meaning the trade dynamic, with "our folks" being not only his party's nominees but its establishment hierarchy. Kamala Harris, he said, "doesn't know what to do or what to say" about China and tariffs, and when she does speak to the issue, he added, "it's a mish-mash."

"Both sides of her mouth," agreed the one we've tagged "the other broker," he being the insurance man. But we also know him as a capital M moderate, a mainstreamer for the ages, the fellow who almost always can be counted upon to acknowledge the nugget, or the boulder, in an otherwise absurd or offensive argument. So when he elected to change the subject to the local scene, well, why not?

STEVE BARNES

"We should have had the chance to vote on it," M said. He was talking about the proposed abortion amendment, which the secretary of state barred from the November ballot, citing legal insufficiencies. The state Supreme Court sided with him, albeit by the slimmest of margins. Had voters approved the amendment, it would have substantially expanded abortion rights in Arkansas, which now are essentially non-existent. Not even in cases of rape or incest.

He didn't "celebrate abortion any more than the next guy," M went on, "but rape and incest? Good God."

Nobody at the table argued with him, not even the stockbroker, the most ardent conservative among us. But then his conservatism is of the fiscal rather than the physical. As when he allowed that the income tax cuts Governor Sanders had pushed through the General Assembly were bearing fruit. He and his colleagues in retail securities were seeing heightened investment, even with equity prices at elevated levels.

That was all Big D needed. He looked up from his chef's salad and demanded to know how those tax cuts were going to keep open rural hospitals, or put more resources into schools with substantial numbers of disadvantaged students. "And don't give me that 'rising tide lifts all boats' stuff," he cautioned the stockbroker, who frowned in response.

"You're still thinking that government spending is the answer to all this stuff," he said, not unpleasantly. If that was the solution, he went on, the small town hospitals and the schools everywhere would be on a solid footing instead of leaching dollars.

It was the back-and-forth on social philosophy of which the two guys specialized, neither willing to give an inch, ever. Somehow they get along, as do we all, we half-dozen or so Arkansans who basically want the same thing for the state and ourselves and our kids, but differ on how to achieve it. There's no name-calling, no questioning of motives, no accusations of improper behavior or illegal profiteering or — or whatever.

"How was Yosemite?" asked Big D.

"Terrific," the stockbroker replied.

That was July, August. Summer is over. November approaches.

LETTERS TO THE EDITOR

Democrats and Republicans in the same place

Curt Longhenry, Mountain Home

Kamala Harris said "I want to see everyone in the same place but some will have more." That's about as communist statement as you can make. During the debate she continued with her plan which seems to be the same as we have had for the last 3 1/2 years, more government spending, more regulations, and more invasion in peoples lives.

Under her plans the government will need a lot more in taxes. They would like to implement an "unrealized capital gains tax." They would tax the capital gains on things you haven't sold. Here's how it looks. Say you have \$100,000 more in stocks than you paid for them and say the tax rate was 30%, you would be charged when you file your taxes with an extra \$30,000 bill. Unless you have \$30,000 laying around to pay your tax bill, you would have to sell some of your stock. That would make the stocks go down in price, so you lost two ways. Remember the Democrats need money to keep operating. What if they include your house in unrealized capital gain?

Bless Iowa Senator Joni Ernst who forced an audit of the IRS. What they found was 6,000 IRS employees owe 50 million dollars in back taxes. Remember Kamala Harris was the deciding vote to hire all the new IRS employees. Under Biden-Harris the government is out of control.

The only way to stop them is vote them out. I only hope Democrat voters don't fall for their plans. I have a feeling that the "same place" might not be good for most of us. I also ask that people don't vote too early there is too much to be learned about the Democrat Party plans for America. If you vote too early then find out you made the wrong choice, you will have to live with that choice.

In the meantime pray for them, us and our country.

God Bless America.

Why don't illegals have to abide by our laws?

Kathryn Grace, Mountain Home

Why is it that only law abiding Americans have to obey our laws? When illegals are "given" a driver's license without having to pass a driving test, given a car and several thousand dollars tax free to drive on our roads? I don't think they can speak English or even read road signs. Now many of these cars don't even have license plates so that when they are involved in an accident it can't be reported.

What would Mountain Home be like if we had hundreds of illegals transported (at tax payers expense) here like the town of Springfield, Ohio, has had? Are you prepared for an invasion like that? Summers in Baxter Coun-

ty count heavily on the tourism trade. A year or so ago Blanchard Springs campgrounds had to close as it was full of migrants, only two or three cars as they had walked there from the border. It was a big improvement since the parks have showers, toilets and water. One camper, who took his family to that park every summer had to turn around and go back home because it was so filthy and he didn't feel safe staying there.

What would happen to you or me if we drove into a school bus and killed an 11-year-old child and injured 20 others? My parents would not be asking for leniency for me?

Anyone that is planning to travel in the near future, please, be prepared for any emergencies caused by the millions of illegals that were "Uninvited" into our America by the Biden Administration, they even wore t-shirts with his name on it. Don't take my word, it is easily available on FrankSpeech.com. Several reporters have risked their lives to video the hoards of invaders pouring across our Southern borders!

Wake up America. Protect our freedoms!

Writer gives a shoutout for 'doing business right'

James Crawford, Mountain Home

Having grown up at a time when the phrase "the customer is always right," was a normal way of running a business, one that seems to be so missing in today's business world, I just wanted to remind customers of Central Heat and Air, that they still operate their business in this manner. My wife and I just had an experience with them which, although unrelated to business, proved the fact that they still operate their business in this manner, and we would recommend them to anyone in the area.

And too, the term "God Bless You" is still alive in Arkansas. May God Bless Arkansas, and May God Bless America.

Harris isn't the danger, it's those that support her

Richard Ehrler, Mountain Home

The danger to America is not the Marxist/Socialist Kamala Harris, but a citizenry capable of entrusting a person like this with the Presidency. It will be far easier to limit and undo the follies of a Marxist/Socialist presidency than to restore the necessary common sense and good judgment to a depraved electorate willing to have such a person for their president. The problem is much deeper and far more serious than Harris, who is a mere symptom of what ails America.

Blaming the 'leader' of the people should not blind anyone to the vast confederacy of fools that could make her their leader. The American Republic can

survive a Harris, who is, after all, merely one person. It is less likely to survive a multitude of people such as those who made her their president. The present Democrat administration gives 'Billions' (yes Billions) of this nation's tax dollars to countries who hate us, and to people who are in this country illegally. This includes paid government credit cards, free cell phones, medical, food and paid lodging.

People going to visit New York find 60% of the hotels are full of illegal immigrants paid for with our tax dollars. All this while our veterans who 'fought' for this country live/die on the street. Who on earth thinks this way? These people should 'never' be allowed near any Government office in this country. They allow millions to freely walk across our borders most of whom are young single males? What could possibly go wrong with this. (really??)

At first any sensible person would say that's insanity and it is, but look more closely, the Democrats know exactly what they are doing. They are following the Marxist/Socialist playbook to the letter. China has mentioned time and again that they will take this country without firing a shot.

How many items do you have in your home from 'China?' We are financing our own demise with the Democrats leading the way. This has Obama's fingerprints all over it with his dream of a One World Order. 'Remember?' Yes 'Martha' the light at the end of the tunnel is in fact an oncoming train. Don't get caught saying (OMG) I could have stopped this. Does anyone actually think Kamala Harris's laugh, and double talk is going to work with the leaders of Russia, China, Iran, and North Korea. Common sense says you know the answer to that.

She cannot quote any specifics because she doesn't know any, she is a puppet like Biden to take your attention, while 'Obamas' (non-elected) former cabinet runs this country. Remember when he was called the (liar in chief) a leopard doesn't change his spots!

This time in the history of this country, we need to put personalities aside and go with a proven leader who is respected and feared by our enemies. We are only going to get one chance to get it right. (Speak softly and carry a big stick) Make sure you vote using the common sense God has instilled in all of us. Remember if it's too good to be true, or if it was told to you by a politician or the media, it's a lie. These people do not spend millions to get a job that only pays \$140,000 a year because they are upstanding citizens with only your interest at heart! Vote your conscience and rid this country of this corrupt government. We all know what needs to be done and the job is at hand!

Wake up America!

Oh, for the life of an old geezer

I am not given to complaining, except when I'm awake. That's according to The Gracious Mistress of the Parsonage.

I don't think of myself as old, just older.

Seeing my doctors is second only to seeing The Gracious Mistress of the Parsonage. All the nurses in the various medical places I go know me by my first name. I don't know if that's good or if it's bad. I'm going to lean in the direction of good. After all, at my age I'm leaning in some direction.

The Gracious Mistress of the Parsonage and I recently ate lunch together.

When the waitress came to our table to take our order, she asked how we were, and I responded, "Well, for an old geezer, we were doing fine."

She smiled at me and said, "Does that mean that you both are senior citizens?"

I usually take offense at that classification. But under the circumstances I nodded my head and said, "Yes, we are senior citizens but I prefer old geezers."

Looking at me, the waitress smiled and said, "You are in luck today. We have a senior citizen discount on everything on the menu."

I looked up at her and said, "Why, yes. We're both senior citizens."

"In that case, you can get a 20 percent discount on everything you order today."

She took our coffee order and then went to get it for us. As she was gone, The Gracious Mistress of the Parsonage said, "Are we old geezers or senior citizens?"

I smiled and said, "Today we are senior citizens and tomorrow will go back to being old geezers."

"I guess it's only about the money for you," she smiled.

After thinking for a moment, I finally responded, "I've never heard of an old geezer discount. Have you?"

She shook her head and said, "I'll let you be a senior citizen today and will see what tomorrow might bring."

That next week, whenever we went out to a restaurant and, the waitress would say, "How are you doing today?" I would always respond by saying, "Do you have any senior citizen's discounts today?"

If they said "no," I would always respond by saying, "I'm just an old geezer today."

If they said "yes," I would respond by saying, "I'm a senior citizen today."

At one restaurant this past week, the waiter came up and greeted me. I was having a rather crazy day, to put it mildly, so I told him, "I'm just an old geezer today."

"Well," said the waiter, "this is my last day here at this restaurant and so I'm going to give you an old geezer discount. You sorta remind me of my grandfather."

I was so sorry that The Gracious Mistress of the Parsonage wasn't with me. We could have enjoyed a two-way ticket for the old geezer discount. She would have been happy, I think. If I keep from calling her an old geezer, my day is happy.

In thinking about this I re-

DR. JAMES L. SNYDER
FOCUSED AND TO THE POINT

membered a verse in the Bible that addresses old age. "They shall still bring forth fruit in old age; they shall be fat and flourishing" (Psalm 92:14).

God still has work for me even as an old geezer. Finding that work is the joy of my life each day. This is not based on what I use to do, but what God has for me today.

LAWSUIT

Continued from Page A1

Count III states by virtue of the facts alleged herein, defendants have committed a tort of tortious interference with contact in an effort to extort the Ferrells into leaving town, stop running for office, give up their interest in the strip mall and stop complaining about law enforcement. As a result of the defendants actions, Brenna Ferrell has endured mental, emotional and physical suffering and damage to her reputation, as well as attorneys' fees. Defendants conduct have been willful, malicious and reckless violation of Brenna Ferrell's rights, meriting punitive damages.

Count IV states by virtue of the facts alleged herein, defendants have violation 42 U.S.C. 1983 and Ar. Code Ann 16-123-105 as well as the rights protected by the Amendments to the U.S. and Arkansas Constitution. Defendant, City of Bull Shoals, failed to train and supervise the defendants, especially Defendant Sanders, in importance of due process and being truthful. In fact, the City of Bull Shoals will continue to employ untruthful police officers in the future in the absence of appropriate relief from this Court. Such conduct

shocks the conscious and violates Brenna Ferrells' "due process" rights. As a result of the defendants' actions, the Ferrells have endured mental, emotional and physical suffering and damage to her reputation, as well as attorneys' fees. Defendants conduct have been willful, malicious and reckless violation of Brenna Ferrell's rights, meriting punitive damages.

Count V states by virtue of the facts alleged herein, defendants have committed defamation and false light and conspired to do so and have abused any privilege they had to make these statements. As a result of the defendants actions, Brenna Ferrell has endured mental, emotional and physical suffering and damage to her reputation, as well as attorneys' fees. Defendants conduct have been willful, malicious and reckless violation of Brenna Ferrell's rights, meriting punitive damages.

Count VI states by virtue of the facts alleged herein, defendants have caused a loss of consortium for Charles Ferrell. As a result of the defendants' actions Charles and Brenna Ferrell have endured mental, emotional and physical suffering. Defendants conduct have been willful, malicious and reckless violation of the Ferrell's rights, mer-

iting punitive damages.

The facts as listed in the lawsuit are:

- In 2019, the Ferrells, who are married to each other, moved to Bull Shoals and opened a business there

- In Spring-Summer 2021, the Ferrells entered a business relationship with defendant Knopic, who owned a business in Bull Shoals. In 2022, Brenna Ferrell was running for City Council and was opposed by defendant Hotchkiss' family member. While this was going on, the nephew made false accusations of criminal activity by the Ferrells

- Defendant Hotchkiss had a business relationship with Defendant Knopic that was winding down and perceived the Ferrells as a threat to that relationship

- Defendant Hotchkiss was Police Chief in the nearby town of Lake View (sic) and maintained a relationship with people in power in Bull Shoals

- The City began subjecting the Ferrells and their business to unwarranted interferences and supervision, preventing them from fully opening their business and by attempting to condemn property that they were attempting to use as a retail/warehouse space from Defendant Knopic in exchange for repairing/developing it

- When the Ferrells were attempting to run their business, police officers would come by and harass them and tell them they could not be operating. The Ferrells had a business license and were breaking no laws, and so would ask the police for some kind of authority or paperwork

- Defendant Sanders was a police officer who appeared multiple times when the Ferrells reported their neighbor for things such as beating his girlfriend, chasing people with crow bars or trying to hit Mr. Ferrell with a car. Sanders would do nothing, and so the Ferrells complained he was not doing his job, which upset him

- The Ferrells became property managers for one of the defendants, Knopic's properties in the summer of 2022. Defendant Hotchkiss had been the property manager, and his last acts as property manager was to evict tenants sometime in June 2022, which he helped do as police chief

- Police Chief Ainsworth knew that the Ferrells had been made property managers immediately after the eviction

- On Sunday night, Aug. 15, 2022, the former tenants came to the property, broke the locks and kicked in the door so they could retrieve items that were formerly theirs, but had become Defendant Knopic's by virtue of having been left there when there when they were evicted for two months

- All the Ferrells knew was that people had broken into the home and

backed a truck up to it late on a Sunday night, in a dark area. They also knew there was a rash of break-ins

- So they called the police, went out and Brenna Ferrell was carrying a pistol. Their intent was to identify who was breaking in

- The people had no authorization to be there
- Apparently, the police had also been called by a neighbor

- They arrived. The people present included Defendant Dustin Sanders, during the time that all were at the scene, the burglars talked with Defendants Hotchkiss and Sanders. Defendant Sanders also talked with Defendant Ainsworth

- Defendant Hotchkiss claimed he was the property manager to Defendant Sanders and had given permission to the burglars to be there. This was false. Alternatively, Defendant Sanders lied about the Defendant Hotchkiss said making that up

- Defendant Sanders talked to the Chief and Defendant Ainsworth, claimed that he had talked to Defendant Knopic, and that Defendant Hotchkiss was his designated property manager. This was false. Alternatively, Defendant Sanders has lied about what Defendant Ainsworth said

- So the Ferrells were told they were not the property managers and ordered away

- Then Defendant Sanders swore out a false affidavit, with the knowledge and permission of Defendant and Chief Ainsworth. In that affidavit, Defendant Sanders

made several false statements, including that (a) The Ferrells were not property managers; (b) the burglars had a right to be there' (c) Defendant Hotchkiss was property manager; (d) and that he saw cell phone video taken by a burglar of Brenna Ferrell actually pointing a gun at the burglar. This never happened and was not on the video

- Defendant Ainsworth reviewed the video and the affidavit and knew false statements had been made in the affidavit. This course of conduct resulted in Brenna Ferrell being arrested, booked into custody and then tried before a jury, where she was found innocent

- Brenna Ferrell later talked with Defendant Ainsworth. At various times he said he saw the video, did not see the video at all and saw the entire video. When Defendant Ainsworth was confronted about the charges being brought, he said that he preferred that his officers learn on their own, indicating if they brought false charges, he was okay with that and would not stoop to such

- At one point, Defendant Ainsworth can be heard telling Defendant Sanders that Defendant Hotchkiss would help him write out the statement. This was all done with the participation and permission of the Mayor Nixon. All of defendants were conspiring with each other to violate Brenna Ferrell's constitutional rights and commit these torts

- During the incident Defendant Sanders made negative comments about the Ferrells referencing their past complaints.

Study offers improvements to food quality computer predictions

By John Lovett
UA Division of Agriculture

FAYETTEVILLE — Have you ever stood in front of apples on display at the grocery store trying to pick out the best ones and wondered, “Is there an app for this?”

Current machine-learning based computer models used for predicting food quality are not as consistent as a human’s ability to adapt to environmental conditions. Still, information compiled in an Arkansas Agricultural Experiment Station study may be used someday to develop that app, as well as provide grocery stores with insights on presenting foods in a more appealing manner and optimize software designs for machine vision systems used in processing facilities.

The study led by Dongyi Wang, assistant professor of smart agriculture and food manufacturing in the biological and agricultural engineering department and the food science de-

partment, was recently published in the Journal of Food Engineering.

Even though human perception of food quality can be manipulated with illumination, the study showed that computers trained with data from human perceptions of food quality made more consistent food quality predictions under different lighting conditions.

“When studying the reliability of machine-learning models, the first thing you need to do is evaluate the human’s reliability,” Wang said. “But there are differences in human perception. What we are trying to do is train our machine-learning models to be more reliable and consistent.”

The study, supported by the National Science Foundation, showed that computer prediction errors can be decreased by about 20 percent using data from human perceptions of photos under different lighting conditions. It outperforms an established model that trains a

computer using pictures without human perception variability taken into consideration.

Even though machine vision techniques have been widely studied and applied in the food engineering field, the study noted that most current algorithms are trained based on “human-labeled ground truths or simple color information.” No studies have considered the effects of illumination variations on human perception, and how the biases can affect the training of machine vision models for food quality evaluations, the authors stated.

The researchers used lettuce to evaluate human perceptions under different lighting conditions, which were in turn used to train the computer model. Sensory evaluations were done at the experiment station’s Sensory Science Center. Han-Seok Seo, professor in the food science department and director of the Sensory Science Center, was a co-author of the study.

Out of 109 participants in a broad age range, 89 completed all nine sensory sessions of the human perceptual reliability phase of the study. None of the participants were color blind or had vision problems. In five consecutive days, the panelists evaluated 75 images of Romaine lettuce each day. They graded freshness of the lettuce on a scale of zero to 100.

The images of lettuce the sensory panel graded were of samples photographed over the course of eight days to provide different levels of browning. They were taken under different lighting brightness and color temperatures, ranging from a blueish “cool” tone to an orangey “warm” tone, to obtain a dataset of 675 images.

Several well-established machine learning models were applied to evaluate the same images as the sensory panel, the study noted. Different neural network models used the sample images as inputs

and were trained to predict the corresponding average human grading to better mimic human perception.

As seen in other experiments at the Sensory Science Center, human perception of food quality can be manipulated with illumination. For example, warmer environmental colors can disguise lettuce browning, Wang explained.

Wang said the method to train machine vision-based computers using human perceptions under different lighting conditions could be applied to many things, from foods to jewelry.

Other co-authors of the study from the University of Arkansas included Shengfan Zhang, associate professor of industrial engineering in the College of Engineering; Swarna Sethu, former post-doctoral researcher in biological and agricultural engineering department, and now assistant professor of Computer Information Sciences at Missouri

Southern State University; and Victoria J. Hogan, program assistant in the food science department.

The study was supported by the National Science Foundation, grant numbers OIA-1946391 and No. 2300281. The authors also recognized graduate and senior undergraduate students Olivia Torres, Robert Blindauer and Yihong Feng for helping collect, analyze and grade samples.

Diced fresh pears add a pop of sweetness to Pear & Gorgonzola Flatbread Pizzas. LINDA MASTERS/BAXTER BULLETIN

Pear Perfection

By Linda Masters
lmasters@baxterbulletin.com

While we generally think of apples in the fall, August through October also is the prime season for pears.

The commercial pears sold in grocery stores were put into cold storage right after they were harvested.

You can hasten ripening at home by placing pears in a paper bag with a ripe banana or apple. The pears should ripen in one to three days, but watch them closely as they get overripe quickly.

The varieties of pears you will see in local stores generally are Asian, Bartlett, Bosc and Anjou.

Asian pears have a higher water content than most European pear vari-

eties. This gives the fruit a delicious texture when eaten raw, but makes them less suitable for baking and cooking

- Bartlett pears have a buttery texture, and are the pears most often used in canning. To tell if these pears are completely ripe, press lightly on the pear near the stem. If the fruit gives slightly under pressure, it's ready to eat

- Bosc pears have a deep brown color and slightly rough peel. Their flesh is firm and juicy which makes a Bosc pear well-suited for baking or poaching

- Asian pears are well-suited for baking, poaching, or roasting. When eaten raw, they have a subtle sweetness and light lemony flavor and can be red or green.

Pear & Gorgonzola Flatbread Pizzas

The pear on these flatbread pizza give a pop of sweetness as you eat.

Serves 4

4 flatbreads (Naan, lavash or split pitas)
½ cup unsalted butter
1 pear, peeled and diced

4 ounces prosciutto
½ cup gorgonzola cheese, crumbled
¼ cup chopped walnuts

Place butter in a small saucepan. Melt butter over medium heat, stirring constantly; butter will start to foam. Continue cooking until brown specks start to appear in the bottom of the pan. Pour butter into small dish to stop the cooking process.

Preheat oven to 400 degrees.

Brush flatbreads with half of the browned butter. Top each flatbread with prosciutto, pear, walnuts and gorgonzola.

Place flatbreads on a baking sheet and bake for 12-15 minutes. Drizzle remaining browned butter over flatbreads before serving.

Roasted Pears with Balsamic and Honey

Caramelized roasted pears with balsamic and honey are a super easy-to-make dessert made with only four ingredients. Use a cast-iron pan if you have one.

Serves 2-4

2 pears large slightly underripe
2 teaspoons unsalted butter

3 tablespoons good-quality balsamic vinegar

4 teaspoons runny honey

Preheat the oven to 400 degrees.

Halve and core the pears. Don't peel them.

Melt butter in a cast-iron skillet or another heavy-bottomed, oven-proof pan.

Add the pears, cut-side down, and sauté for 2 minutes on the stove.

Place the pan in the oven and roast 20 minutes.

Flip the pear halves and drizzle the balsamic vinegar on the pears. Continue roasting for an additional 5 minutes.

Remove the pan from the oven, drizzle each pear with some honey and let the pears rest for another few minutes.

Serve warm with some of the pan juices.

Potatoes and Pear Soup

A creamy and velvety soup perfect for fall.

Serves 6

1 tablespoon butter
1 large sweet onion, peeled and chopped

2 cloves garlic, pressed
½ pound boiling potatoes, about 3 medium, peeled and cut into small cubes (I like to use Yukon Gold)

2 medium carrots, cut into small pieces

2 tablespoon maple syrup

4 pears cored, and cut into 1-inch chunks

1 teaspoon fine sea salt

2 teaspoons chopped fresh thyme

1 teaspoon freshly ground nutmeg

2 teaspoons Dijon mustard

3 cups vegetable or chicken broth

Crème Fraîche or sour cream

In a large pot over medium heat, melt the butter; stir in the onion. Turn the

heat down to medium-low, covering the onions. Stir occasionally for about 10 minutes, or until the onions are softened.

Turn the heat up to medium and stir in the garlic, potato and carrot. Cover the pot and cook for about 10 minutes.

Add the maple syrup, pear, salt, thyme and nutmeg, stirring gently. Allow to cook on low heat, stirring frequently, for about 5 minutes.

Add in the broth and mustard, bring to a boil, reduce heat to low. Cover the pot and let the soup simmer for about 15 minutes or until the potatoes are soft.

Transfer the soup in batches to a blender or food processor, and purée 2-3 minutes until smooth, or use an immersion blender. Salt and pepper to taste.

Serve with a spoonful of crème fraîche or dollop of sour cream.

Slow Cooker Pear Butter

Like apple butter? You will love pear butter.

8 peeled and cored Bartlett or Anjou pears (about 4 pounds)

1 tablespoon bottled lemon juice

½ cup brown sugar

2 teaspoons pumpkin pie spice

Cut pears into eight segments. Cooking time is for eighths.

Place the pears in a 6-quart slow cooker and toss with lemon juice. Add sugars and remaining ingredients and toss well.

Cover and cook on LOW for 7-8 hours or HIGH for 4-5 hours or until apples are very soft and mash easily.

Blend with an immersion blender until very smooth.

Ladle into small canning jars. Keep in refrigerator 3 weeks or can in a hot water bath.

“My grandmother’s story was that she was with a few different brokers before joining the team here,” Beshears explained. “The last broker she was with was Merrill Lynch, and she lived in different places for her career. My father grew up seeing her career as a broker and became interested in it at a later age.”

Beshears explained that the struggles for his grandmother were a reflection of when times were a little different.

“She had to face issues with discrimination because she was a woman at the broker firm where she worked,” he stated. “They were essentially taking some of the larger clients that she would acquire and give them to the other male advisors. She finally had enough, even winning a lawsuit against them. She eventually left the company and ultimately met my dad’s stepdad.”

Beshears explained that after his grandmother married Steve Luelf, current CEO of American Epoxy Scientific, in 1997, they decided to move to Mountain Home following her departure from Merrill Lynch.

“The office here was already open,” Beshears stated, “But the previous advisor had left, so my grandmother decided to begin working in this very

office with Edward Jones in 1998.”

The move was a personal victory for Luelf, Beshears stated, but amidst the celebration of a career milestone, a dark shadow would soon be cast over the family.

“She worked here about two or three years before she found out she had cancer,” he said. “She found out not long after she had my uncles in 1998, the same year she opened this office.”

Beshears stated softly that Luelf anticipated a long and difficult journey ahead of her with the cancer and that the outcome might not end well.

“She wanted someone to help her with the office, and so she reached out to my dad, who had been in the U.S. Coast Guard at the time,” he said. “They had been in Hawaii for a few years, and my mom got homesick. They were really young and had kids in high school.”

Beshears explained that he is the tender age of 24 years old, and his father currently is in his 40s, meaning his father was quite young when he decided to join his mother (Seth’s grandmother) in the business.

“He was pretty young, but she trusted him and expressed the need for someone to assist her,” he said. “He was getting out of the service and it was time for him to re-enlist, but after he considered it,

told my grandmother that he knew what kind of life she afforded him and he wanted to do the same for her and his kids.”

Beshears said that the move to Mountain Home came soon after and they worked side by side for a few years until his grandmother lost her battle with the cancer.

“She passed in 2005,” he stated, “And though I was young and have some memories of her, I find it neat through this process of doing this business and seeing the influence she had on it and the community.”

Beshears said that there are community members all the time who approach him to regale him with stories of his grandmother and how beloved she was, not only in the business, but the community as a whole.

“I’ve met so many people who tell me that they used to know my grandmother,” he said. “They would tell me about the many great things she did for people, and I actually have clients now that started with her, and now I get to see them through their journey that she originally started.”

Beshears said though some things must change with the times, the goal remains the same — to provide the area with trusted financial services from a business with local people.

“We continue to look to create successful financial plans for people in the community and be more involved,” he stated. “We want to give back to the community as much as they will trust us and allow us to be involved in their financial needs. It’s a symbiotic relationship with the clients.”

Beshears explained one reason the company has been so successful is the ability to understand that financial needs can be a sensitive matter, and the trust that requires is something Beshears states his family has never failed to provide.

“It’s a sensitive thing for people to seek help with because it can get very complicated,” he said.

As far as his family’s legacy, Beshears says his vision is simple.

“I want to do the same thing she did,” Beshears said. “I would love for people 20 years into the future to tell stories of how I helped them and left a positive impression on them.”

Beshears is beginning a legacy of his own and likes to think that it will be continued through his children in the years to come.

“I have a son and a daughter, and that really changes your perspective on things,” he said. “I would love to be able to have a fourth generation advisor come from my own family. That’s what we do now; we’ve been doing this for nearly 40 years cumulative as advisors, 25-30 years at this office right here.”

Beshears was sitting at the very desk his grandmother sat in, and he still has some mementos and reminders of her gentle presence.

“I have a mug here that my dad and grandma had together, and I find little

random knick knacks of hers such as pens and pencils,” he said. “I even found of her old cards and my grandfather’s old card too.”

Beshears said the future is bright for him and his career and he really looks forward to what is to come and that their objectives remain forthright and simple.

“We are not a simple transactional business,” he clarified. “We partner with our clients to discover their needs, wants, and wishes and work together to create an achievable financial plan with continuous communication to ensure we stay on track.”

Beshears graduated from the Mountain Home School District where he was active in the track program and Future Business Leaders of America. He was a member of the Bomber football program throughout his school career and currently tries to give back to the program by serving as a volunteer coach with the fourth-grade football program. Beshears also received his associate’s degree from Arkansas State University-Mountain Home, as well as a bachelor’s from Arkansas State University online. He interned at the current office for Edward Jones until stepping into the advisor role earlier this year.

He married his high school sweetheart, and they have children Sawyer, 1, and Scarlett, 1 month.

HONOR

Continued from Page A1

During the evening meal, several tickets were drawn for veterans to be part of the contingency presenting a wreath of flowers the next day at Arlington National Cemetery during changings of the guard at the Tomb of the Unknown Soldier. Hill was fortunate enough to have his number drawn, and his guardian was ecstatic for him to be able to participate in such an honor.

It was very special to Hill as he had never visited Washington, D.C., and always wanted to visit Arlington National Cemetery.

The next day was a flourish being bussed to various memorials and monuments. Since Hill’s guardian was a tour guide, she asked him what he wanted to see, so he got to spend a little more time at some memorials than others.

Hill and LaRose both said all the memorials were heart wrenching, but the one of the most poignant was the Vietnam Women’s Memorial.

“The nurse, holding a wounded soldier and another nursing looking skyward for an Evac helicopter, really was moving,” Hill said.

The group got a special tour of the Pentagon, including the site were the plane

hit on Sept. 11, 2001, all areas closed to the public.

Hill was part of a five-veteran group who presented a floral wreath during the changing of the guard ceremony at the Tomb of the Unknown Soldier, which was the highlight of his trip.

LaRose served from 1970-1976 in the U.S. Army, including duty in Germany. Hill said he grew up in the era of the draft and couldn’t wait to join the U.S. Navy and served 1955-1963.

“We were treated royally,” both LaRose and Hill said. “Anytime you walked by anybody, you could stop and talk. It was an unreal experience.”

Lone Eagle Honor Flights motto is “Leaving No Veteran Behind.” It’s website states the group “ensures that all veterans, regardless of their geographic lo-

cation in the U.S., are able to participate in their honor flight experience.”

The Lone Eagle Honor Flight website states, “The Honor Flight recognizes American veterans for your sacrifices and achievements by flying you to Washington, D.C. to see your memorial at no cost. Top priority is given to WWII and terminally ill veterans from all wars. In order for Honor Flight to achieve this goal, guardians fly with the veterans on every flight providing assistance and helping veterans have a safe, memorable and rewarding experience. For what you and your comrades have given to us, please consider this a small token of appreciation from all of us at Honor Flight.”

Bombers' ground game whips Bulldogs, 50-25

By Neal Denton
ndenton@baxterbulletin.com

Mountain Home senior Jacob Chenoweth led a backfield bonanza for the Bombers on Friday night. Four different running backs scored touchdowns, and Chenoweth hit paydirt three times as Mountain Home clinched its first 3-0 start since 2011 with a 50-25 whipping of the Rolla (Mo.) Bulldogs at Bomber Stadium. Mountain Home's backfield left figurative cleat marks on Rolla defenders as Chenoweth, Barrett Miller, Dawson Dunlap and Jacob Bellomy each scored touchdowns, and three of the four had long scoring runs after breaking through multiple tackles. Chenoweth racked up 177 yards on 21 carries and also caught a 13-yard pass in the victory. Mountain Home totaled 453 yards, and 364 of those came on the ground. "He was a monster tonight," Mountain Home head coach Steve Ary said of Chenoweth. "We feel like we have a good stable of running backs, and we even have one or two that you didn't see. We're proud of all those guys. We're explosive. We have a little speed, and speed kills."

The Bombers will open 6A-West Conference play on Friday at Fort Smith Southside, looking to become the first Mountain Home team since 1986 to start 4-0. "We know what we want to do and what our goals are," Ary said. "We know we have to be good every Friday. We don't get any easy ones. We still haven't put our best game together yet. Maybe we'll be better next week." The Bombers overcame a slow start, falling behind 6-0 after a three-and-out on offense and Rolla's Mason Delagarza taking a counter for a 66-yard touchdown run. Chenoweth scored his first touchdown, and the Bombers earned a safety for an 8-6 lead when Rolla sent a snap over the punter's head, out of the end zone. The Bombers turned the mistake into points as eight plays later, Miller ran for a touchdown and Isaac Ballard's PAT kick made it 15-6 early in the second quarter. Miller left the game with an injury in the second quarter, and Dunlap returned from a small injury in the first quarter. The Bombers still had plenty of firepower. Quarterback Brantlee Phillips kept 17 times for 82 yards, Bellomy rushed three times for 60 yards

and a touchdown, and Dunlap carried twice for 37 yards and a score and almost returned an interception for a touchdown. "I was proud because we had a lot of young guys step up tonight," Ary said. "We battled some adversity and injury. Our kids just fought. It was hot and steamy, and I could tell they were gassed and we were, too. It was a good ballgame." Mountain Home turned the ball over twice but forced four turnovers by the Bulldogs on the night. Rolla totaled 277 yards, but only 132 of those came on the ground. Colton Petersmith, who caught eight passes for 122 of Rolla's 145 receiving yards on the night, caught a touchdown pass to bring the Bulldogs within 22-13 by halftime. "We knew we had to play well against the run. I felt like we did for the most part. They hit two big pass plays. They also got a short drive, so that wasn't good." Mountain Home got the momentum back after a rainy halftime as Gus Wilber intercepted a pass by Rolla quarterback Easton Smith, and Phillips hit Talan Palmer with a 25-yard touchdown pass.

Mavericks host Bombers in battle of unbeatens

By Neal Denton
ndenton@baxterbulletin.com

Mountain Home's high school football team is looking for its first 4-0 start in 38 years, but the Bombers face a tough road test to accomplish the feat. Mountain Home opens its 6A-West Conference slate at 7 p.m. Friday at Fort Smith Southside, which is a new member to not only the conference, but to Class 6A. "We're preaching that this is our conference and we want to see how we stack up against everybody," Mountain Home head coach Steve Ary said. "Right now, we're still trying to get a little 6A respect. I think we have good focus right now. We have a good mindset."

zone, mid zone, and a little bit of counter. They're a big, physical team and they have athletes. We're going to call them our toughest opponent up until now." Southside is led by quarterback Blake Forsgren, who launched five touchdown passes in his team's 41-28 win over Little Rock Southwest last week. "Their quarterback is probably putting up their best numbers," Ary said. "He's about 6-3, 200 pounds, and he's their guy. He can hurt you with his legs, but he's mostly a thrower. I'd consider him a dual threat, because they do run counter-read and zone read." Forsgren's favorite target so far has been Peyton Zimmerman, who put up big numbers against Southwest. "They have a 190-pound running back that runs well, and a couple strong receivers who look really athletic," Ary said. Mountain Home put up 50 points in its third large victory of the season last week against Rolla, Mo., but Ary believes the Bombers will need to improve on both sides of the ball this week.

Y-S Panthers run past Berryville

By Bulletin Staff

Aside from cashing in on a Berryville mistake two plays into the game, the Yellville-Summit Panthers struggled offensively until the final 2:35 of the first half. But the Panthers exploded for a go-ahead touchdown drive to end the half and dominated the Bobcats in the third quarter to take a 34-27 victory to end nonconference play Friday at Panther Field. Quarterback Noah Cantrell, who had totaled only 11 yards on 11 carries until the final drive of the first half, erupted for 54 rushing yards on the scoring drive and went on to call his own number 38 times in the game for 202 rushing yards. Yellville-Summit outgained Berryville, 317-138 in the game, dominating the Bobcats defensively in the second half. Both of the Bobcats' second-half touchdowns

were the result of long kick-off returns by Kale Smith. Yellville-Summit's Jonathan Rine recovered a Berryville fumble at the 41-yard line only two plays into the game, and the Panthers took an 8-0 lead after a 9-yard touchdown pass from Cantrell to Eli Gerth and a 2-point pass to Caleb Hartle. Berryville answered with a 42-yard touchdown by John Butler on a screen pass on a fourth-down play. After being sacked twice, the Panthers

were forced to punt from their own 1-yard line, and the Bobcats started their next drive from the 21-yard line. Six plays later, quarterback Craig Hicks scored, and the Bobcats were up 13-8. Yellville-Summit went on a 15-play drive that ended in a turnover on downs, but the hosts forced a punt to get the ball back and converted two different third downs to set up the go-ahead score.

Marion fights past Mountain Home in four sets

By Neal Denton
ndenton@baxterbulletin.com

The Mountain Home Lady Bombers showed steady improvement over the first three sets against league-leading Marion on Monday, but the Lady Patriots left little doubt in the fourth.

Marion, led by 16 kills and six blocks from Kendall Brown, held on for the 25-17, 25-20, 25-27, 25-14 victory on Pink Out Night at The Hangar to remain in first place in the 5A-East standings.

The Lady Bombers (5-4, 4-3) jumped right back into action Tuesday by hosting Nettleton for another conference match to finish the first half of the double round robin. Mountain Home also travels to Paragould on Thursday.

Marion, the third different top 10 overall ranked team in the state Mountain Home has played in the past week, improved to 12-3 overall and 7-0 in the 5A-East.

Brown, a high-leaping, 5-foot-8 outside hitter, was unstoppable in the first two sets, but the Lady Bombers showed improved blocking in the third to slow down the super sophomore.

The Lady Bombers trailed for most of the third set, but the hosts never trailed by more than four points.

Mountain Home fought to a 21-20 lead and was still up at 22-21 when Marion scored three straight and threatened to post the sweep with a 24-22 lead after consecutive attack errors by the Lady Bombers.

But Marion was whistled for a carry and a net violation on consecutive points to tie the score. Marion's Maggie Miller hit for a kill, but Mountain Home scored the final three points to win the set.

Aleigh Lucas started the spurt with a kill, and the Lady Bombers finished the set with a block for the 27-25 win.

Marion led the entire fourth set, and its lead reached double digits at 22-12 on a kill by Kennedy Bullins.

Bullins added 10 kills for Marion, while Alexa Shinabery made six, and Kaitlyn Austin hit for four. Abbigale Simmons led the visitors with 16 digs, while Austin added 11, and Shinabery and Miller made nine apiece. Simmons also served a match-high three aces.

Addison Martz led the Lady Bombers with a match-high 25 digs, while Lauren Rauls made 13, Cara Jackson totaled 12, Micayla Magis added 10, and Karleigh Drewry tallied eight.

Jackson also set for 20 assists, while Anna McCarn led the offense with 11 kills and also made a match-high nine blocks to go along with five digs.

Lucas made eight kills and four blocks, while Deanna Human notched seven kills and four blocks, and Annyston Crooker and Daelyn Harper totaled four kills each and three blocks apiece.

Marion's serve receive could not have been much better. The Lady Bombers served only one ace in the match, while the Lady Patriots served six winners.

Marion also won the JV match, 25-18, 25-21. Bella Conyers and Maddie Simmons made 11 and 10 digs, respectively, to lead the JV Lady Bombers.

Human and Lucas made six and five kills, respectively. Ava Jones set for 16 assists, and Kenna Medley also totaled nine digs for Mountain Home.

in conference play with a 25-19, 19-25, 15-10 victory over Marion.

Dawson Harper and Macye Carlson had big nights at the net, with Harper totaling a double-double of 11 kills and 14 digs, and

Carlson adding nine kills and four blocks.

Macye Farris notched seven kills for the Junior Lady Bombers (12-3 overall), while Joslin Haney and Eliana Pepin added five apiece.

Shayn Wickersham led the defense with 15 digs, while Violet Daugherty set for a season-high 30 assists and made nine digs.

Mountain Home also won the seventh-grade match, 25-20, 25-12.

ASUMH softball earns first victory

By Neal Denton
ndenton@baxterbulletin.com

The Arkansas State University-Mountain Home softball team gained another first on Friday.

The Trailblazers earned their program's first victory over another college program with an 8-2 victory over Missouri State University-West Plains at Keller Park.

The Trailblazers, who were winless last spring, had wins against only youth travel teams during last school year.

Valley Springs product Camie Moore pitched a gem in the team's fall season debut, allowing only six hits and striking out seven batters over seven innings in the circle.

Viola graduate Haylee Crofts came off the bench to go 2-for-2 at the plate, and left

fielder Cali Dunn bashed a solo home run in the victory.

ASUMH's big inning came in the bottom of the fifth with five runs on four hits and two errors by the Grizzlies.

Moore and her counterpart, fellow freshman Amelia Jenkins of MSU-WP, carved through each other's batting order the first time through the lineup, aside from Dunn's homer to center field in the bottom of the third.

MSU-WP's center fielder crashed into the fence on the home run and left with an injury. The visitors took the lead in the top of the fourth as ASUMH committed a pair of errors. Aundrea Thurston scored on an error, and Alexis Funkhouser scored a base hit by Chelsye Graham.

Roundup: JV Bombers shut out JV Pioneers

By Bulletin Staff

The Mountain Home JV Bombers stormed to a 21-0 football victory over the Batesville JV Pioneers on Monday night at Batesville.

Connor Schulz scored on a 64-yard touchdown run, while Jacob Bellomy and Seth Lara each had 1-yard touchdown runs for Mountain Home.

Zach Padgett kicked all three PAT kicks, while Trae Holliday recovered a fumble, and Ford Coleman

made an interception on a ball that was tipped by Bellomy.

The JV Bombers are now 2-1 and are slated to host Jonesboro next Monday.

Batesville took a 14-0 win in the seventh-grade game, while Mountain Home won an extra period scrimmage, 8-6.

The Seventh Grade Bombers took their opening drive inside the Batesville 15-yard line but could not find paydirt and were shut out.

In the 10-minute extra period, quarterback Rhys Scott scored the lone touchdown and also completed a 30-yard pass to Luke James. William McGowen powered in the 2-point conversion for the difference-maker.

ASUMH softball falls to Diamonds

The Arkansas State University-Mountain Home softball team suffered an 11-8 loss to the Mountain Home Diamonds squad in a fall exhibition played Sunday afternoon.

For the second straight doubleheader, the Trailblazers, who gained their first win last week against MSU-West Plains,

saw the second game of a twinbill washed out due to a thunderstorm.

Harrison product Abigail Fancier led ASUMH at the plate, going 2-for-4 with a three-run homer and four RBIs, while Abby Araiza and Camie Moore also each went 2-for-4 for the Trailblazers.

ASUMH was leading 4-2 in the second inning of the second game when play was suspended.

Araiza led off the first inning with a double and scored on an error. Kylee Hodge supplied an RBI double in the second inning.

ASUMH is scheduled to travel to Mineral Area College for a doubleheader on Friday.

Viola volleyball earns second win

The Viola Lady Longhorns earned their second victory as a volleyball team on Friday night, knocking off Koskkonong, Mo., at Koskkonong.

The Lady Longhorns won by a score of 25-16, 25-21, 25-20. Viola was defeated at home on Monday by Yellville-Summit.

The Lady Longhorns travel to Bakersfield, Mo., Friday, while the Lady Panthers are back in action Thursday with a big conference matchup at Flippin.

Jackson, Green power Arkansas past mistake-plagued Auburn

By The Associated Press

AUBURN, Ala. — Ja'Quinden Jackson ran for two touchdowns, including the clincher with 3:38 left, and Arkansas capitalized on five Auburn turnovers to win the teams' Southeastern Conference opener 24-14 on Saturday.

Taylen Green passed for 151 yards and a touchdown and ran for 80 yards for the Razorbacks (3-1), getting intercepted twice but also delivering a number of drive-saving runs and passes. Payton Thorne came off the bench for two second-half scoring passes to KeAndre Lambert-Smith for the Tigers (2-2).

Arkansas quarterback Taylen Green (10) scrambles away from pressure by Auburn nose tackle Keyron Crawford (24) during the first half Saturday in Auburn, Ala. BUTCH DILL/AP

His 67-yarder to Lambert-Smith in the fourth quarter cut it to 17-14.

Key moment

Green converted a third-and-19 with a scramble and 58-yard touchdown pass to Isaiah Sategna with 2:03 left in the third quarter. Sategna leapt over a defender to grab the ball and a 14-7 lead.

Key stat

The Razorbacks converted 9 of 19 third-down attempts and 2 of 4 fourth-down tries. Bobby Petrino's offense came in leading the nation in third-down conversion rate.

Up next

Auburn hosts No. 15 Oklahoma and Arkansas plays No. 25 Texas A&M in Arlington, Texas.

Takeaways

Arkansas: It was a good way to start off SEC play for the Razorbacks and coach Sam Pittman, who went 1-7 in league games last season. TJ Metcalf had two interceptions and a touchdown-saving forced fumble for Arkansas.

Auburn: Hank Brown's three first-half interceptions show the Tigers may have no good answer at quarterback. Thorne, benched after throwing four interceptions in a loss to California, started the second half and also was picked off once on a deflected pass.

BOMBERS

Continued from Page B1

Hayden Emory brought the visitors within 10 points one more time late in the third quarter, but Bellomy broke free for a 53-yard touchdown run and a 36-19

advantage with :26 seconds left.

Chenoweth added another 64-yard touchdown run, breaking several tackles for a 43-19 lead with 10:04 remaining. Dunlap scored the game's final touchdown with 2:46 remaining.

Phillip was 7-of-15 passing for 89 yards, a touchdown, and an in-

terception. Kaeden Dotson caught four passes for 37 yards to lead the way. Phillips' touchdown pass to Palmer was the Bombers' lone pass attempt of the second half.

Smith was 10-of-21 passing for 145 yards for Rolla, and Emory led the ground game with 13 totes for 52 yards and two scores.

BATTLE

Continued from Page B1

"One of the things the defense struggled with last week was I didn't have my number twos ready," he said. "I need to work on my emergency plan, my plan B.

"Offensively, we're going to have to clean up our passing game," he added. "We'll have to throw the

ball better this week. Our offensive line and our running backs have been really good. That's the strength of the team right now. We had some miscues we have to be better with in the passing game."

The Bombers, ranked No. 5 in Class 6A the past two weeks, are allowing 20 points per game so far.

"On offense, they do a lot of motion," Ary said. "Not a lot of formations, but a lot of motion.

We'll have to get our coverages used to that motion."

The Bombers are used to long road trips, but this will be the first of the season, as Mountain Home's lone road game this season was at Harrison.

"You want to see how you travel," Ary said. "We've done enough of it, but at the same time, it's the first one of the year. You have to get off the bus."

PANTHERS

Continued from Page B1

With :08 seconds remaining, Cantrall kept down to the 2-yard line, leaving :01 left on the clock when the Panthers took their final timeout. Gerth took the snap and punched in the touchdown on the final play to go up 14-13.

The Panthers kept the momentum going in the third quarter, with Cantrall scoring on a nine-play drive for a 20-13 lead.

The Panthers held the Bobcats to 4 total yards in the third period, and Kylah Koksma added a rush-

ing touchdown to push the lead to 26-13 early in the fourth.

Smith single-handedly kept Berryville in the game, returning an 80-yard kickoff for a touchdown. The Bobcats forced a punt on a fourth-and-16 play by the Panthers, but the visitors were flagged for a face mask on the play, moving the ball to a fourth-and-1.

The Panthers went for it, and not only did Cantrall gain the first down, but the junior broke free for a 40-yard touchdown. He also scored the 2-point conversion for a 34-20 lead.

Yellville-Summit made the mistake of kicking to Smith again, and

he returned it 79 yards for an apparent touchdown. But the Bobcats were flagged for a block in the back and started at the 40-yard line.

Berryville scored eight plays later to climb within 34-27 with 1:46 remaining. The Panthers were able to pick up a first down and ran out the clock to preserve the victory.

Cantrall passed 8-of-16 for 68 yards in the game, finding Koksma four times for 19 yards and Gerth twice for 29 yards.

Yellville-Summit opens conference play Friday with a trip to Quitman.

SOFTBALL

Continued from Page B2

ASUMH's Kaya Horton singled to lead off the bottom of the fourth and scored on an RBI by Kyle Hodge to tie it 2-2.

Jessee Latham started the onslaught in the bottom of the fifth with a single over third base, while Brooklyn Walls reached on a bunt, and Crotts singled to right field to load the bases.

Moore helped herself by driving in a run on an er-

ror by the shortstop, then Horton delivered the big blow, a three-run double to push the lead to 6-2.

Horton took third on the throw to the plate, and she later scored on a ground-out to make it 7-2. The Trailblazers added another run in the sixth as Latham was hit by a pitch, bunted to second and scored on another single by Crotts.

Horton went 2-for-4 with three RBIs to lead ASUMH at the plate, while Funkhouser was 2-for-2 with an RBI and a hit-by-

pitch to lead the Grizzlies. Jenkins took the loss, scattering 10 hits. ASUMH was a tough out, striking out only twice in the game.

The second game was suspended in the bottom of the third inning due to a thunderstorm, with the Grizzlies leading 3-2.

MSU-WP, coached by former Flippin High School softball coach Ryan Hargrove, scored twice in the top of the first inning off Crotts, making her home pitching debut.

Today you have a strong urge to talk to others and communicate your ideas. However, you want to find someone who will listen to you in a genuine way.

CANCER (June 21-July 22)

Today it's easy to identify with what you own. This might be why you're less willing to let someone use something you own.

LEO (July 23-Aug. 22)

Today the Moon is in your sign, which happens for two and a half days every month. This brings you good fortune; however, it also makes you feel more emotional than usual.

VRIGO (Aug. 23-Sept. 22)

You might not feel like socializing today. Instead, you prefer privacy in beautiful surroundings with good food and drink.

LIBRA (Sept. 23-Oct. 22)

Friendships will be important to you today. Perhaps a friend has something personal and meaningful to share.

SCORPIO (Oct. 23-Nov. 21)

Today your professional and business concerns take priority. However, in a curious way, some people will know personal details about your private life.

SAGITTARIUS (Nov. 22-Dec. 21)

Today you want to get away from all this. You need a change of scenery. Stimulation and adventure! If you can't travel (which would be ideal), then go someplace different.

CAPRICORN (Dec. 22-Jan. 19)

Today your emotional experiences will be more intense than usual. You might feel jealous. Or you might envy someone and desire what they have.

AQUARIUS (Jan. 20-Feb. 18)

Today the Moon turns your attention to your personal relationships. Close friends and partners will be more important to you than usual.

PISCES (Feb. 19-March 20)

Today you might do a favor for someone or work for the benefit of someone else. You're not a martyr; it's just what it is.

Daughter's decision-making impacted by dad's suicide

JEANNE PHILLIPS DEAR ABBY

DEAR ABBY: My husband's uncle died by suicide in his home six months ago. It was a shock to the entire family. Since the funeral, we have helped to settle his affairs, including cleaning out his home to get it ready for sale.

DEAR ABBY: When I'm invited to a friend's house for dinner and asked to bring dessert, I always make something fresh and delicious for that evening. Lately, I'm noticing that several friends, when invited to my house or another friend's party, are bringing along half-eaten desserts from the previous evening's family dinner.

RECIPE OF THE WEEK

Blueberry Buckle

Ingredients:
For the Streusel-
1/2 c. unsalted butter, melted
1/3 c. firmly packed light brown sugar
1/4 c. granulated sugar
1 tsp. ground cinnamon or cardamom
1 1/4 c. all-purpose flour
Pinch of salt
For the Buckle-
2 1/4 c. all-purpose flour
2 tsp. baking powder
1/2 tsp. kosher salt
3/4 c. granulated sugar
6 tbsp. unsalted butter, softened
2 large eggs
1/2 c. whole milk
2 tsp. lemon zest
2 tsp. vanilla extract
3 c. fresh blueberries, divided
Nonstick cooking spray

Directions:
Preheat the oven to 375°. For the streusel: Stir together the melted butter, brown sugar, granulated sugar and cinnamon in a medium bowl. Add the flour and salt, stirring until combined. Set aside while making the cake. For the buckle: Stir together the flour, baking powder and salt in a medium bowl. Beat the butter and sugar at medium speed until creamy using a handheld mixer or the bowl of a stand mixer. Add the eggs, one at a time, beating until just combined after each addition. Gradually add the flour mixture to the butter mixture, alternating with milk, beating until just combined after each addition. Stir in the lemon zest and vanilla, then gently fold in 2 cups of the blueberries. Spray a 9-by-9-inch baking dish with nonstick cooking spray. Spread the batter evenly in the prepared pan; sprinkle the top of the batter with the remaining 1 cup of blueberries. Crumble the streusel mixture using your fingers, and sprinkle it evenly over the berries and batter. Bake until a toothpick comes out clean, 40 to 45 minutes. Let cool 20 minutes before slicing.

CUSTOMERS OF YELCOT TELEPHONE COMPANY

Effective October 1, 2024, the amount of the Federal Universal Service Charge (FUSC) appearing on your bill each month will increase as a result of an increase in the Federal Communications Commission's (FCC's) universal service fund contribution factor from 34.4 to 35.8%. The new FUSC amount is calculated by multiplying the FCC's universal service contribution factor against your interstate access service charges. The federal universal service fund program is designed to help keep local telephone service rates affordable for all customers, in all areas of the United States.
