

Boaters flock to the newly restored lagoon. Photo from Humiston and Moore Engineers

Council supported the project. "The project has received unanimous votes from the City Council," said Martin.

"I cannot release tourist tax funding for restoration of an ecosystem, protection of properties, mangroves, water quality, and I did not hear tourism very often, said Penniman.

The total cost of the project, including maintenance and post-storm recovery, is $918,055 as presented by Humiston and Moore.

Sea Turtles and Manatee Grass

By Maria Lamb

Sea Turtle nests in Marco are almost as high as last year's for this same period (15 vs. 16). The typical peaks occur between the last week of May and the third week of June. Nesting sea turtles are arriving as predicted – let's all make sure the beach is free of obstacles such as trash, beach chairs/tents, and make sure you fill in the holes before you leave the beach.

From South Beach to the Sand Dollar spit, beach walkers walked over or around what they first perceived as dead seaweed washed ashore. According to the Florida Fish and Wildlife Research Institute, the whitish material is called "Syringodium
