Taking steps today to preserve our environment for tomorrow.

Northeast Florida is home to so many beautiful, natural wonders. JEA is working to ensure it always will be. That's why we're investing in renewable energies and electrifying our fleet of vehicles to reduce our carbon footprint. We're also developing new technologies to preserve and protect our sustainable water supply for the future needs of an

expanding population. And we've completed a \$2 billion upgrade to our water and sewer systems, reducing nitrogen discharges to the St. Johns River by 76%. Because we care about this community we all call home, and want to protect it for generations to come. To explore our environmental efforts, visit **jea.com.**
