

The Market to Metacom Project:

Adaptation and Economic Development in Warren, RI

Presentation:
September 8, 2021
7:00pm

What is This Project?

The Town of Warren is developing a neighborhood plan to prepare for the more frequent flooding and more severe storms that will be impacting Warren in the years to come. The idea is to increase safety and avoid loss by adapting to climate change challenges in the Market Street neighborhood while at the same time promoting redevelopment opportunities on Metacom Avenue to develop a place where people can live, work and shop.

Check out the project on Facebook:

<https://www.facebook.com/MarketToMetacom>

How can I get involved?

Find out more about the project at our website:
