NECAC awarded \$75,000 for Healthy Homes program

The not-for-profit North East Community Action Corporation (NECAC) has been awarded a \$75,000 grant by UnitedHealthcare for its Healthy Homes initiative.

The grant was part of \$500,000 in funding UnitedHealthcare awarded to 10 community-based organizations in Missouri to expand access to care, support maternal and child health, and address social detriments

to health for people and underserved communities.

“We’re honored to be supporting local organizations that offer essential resources to address social and economic factors that have a profound impact on people’s health,” said Jamie Bruce, chief executive officer of UnitedHealthcare Community Plan of Missouri. “These organizations play a vital role in providing greater

access to care and essential services in high-risk and high-need communities throughout Missouri.”

“This is a wonderful partnership between people who do residential work and healthcare,” said NECAC President and Chief Executive Officer Don Patrick. “There’s a natural link between housing and health.”

Homes are weatherized by NECAC crews. The idea is to create healthier

living conditions by upgrading ventilation systems while removing environmental hazards and contaminants such as mold and lead paint.

To qualify, applicants must place their names on the waiting list for the NECAC weatherization program. To do so, call NECAC Housing Development at 573-324-6622 or the NECAC Warren County Service Center, 120 E. Main in Warrenton, 636-456-8191.
